PRACTICAL EXPERIENCE RECORD

PURPOSE : :-

The purpose of maintaining a record of practical work is to ensure that the student nurse has been instructed in the various types of nursing procedures and to record whether or not she has performed the procedures to the satisfaction of the ward sister and sister tutor. This record provides information to appointing authorities regarding the practical experience during training of the individual nurse.

RULES :-

1. The student should be responsible herself for getting the book filled and signed by the respective authorities.
2. She should realize that it is part of her training to seek apportunities for new experience and practice.
3. The procedure should be signed after the student has done the procedure under the supervision of college staff whom the principal feels capable of observing the procedure.
4. Practical record sheet will be scrutinized by the examiners during practical examination.

FIRST YEAR	Taught In class Date	Sign.	Classroom		Ward	
			Date	Sign.	Date	Sign.
1. Admission of patient Reception Care of belongings						
2. Transfer of patient						
3. Discharge of patient						
4. personal Hygiene a) Bath in bed b) Bath in bathroom c) Hair combing d) Hair wash e) Pediculosis treatment f) Mouth care g) 1. Assisted 2.helpless pt 3. uncolnsc pour h) Nail care i) Care of hand & Feet						
5. Prevention of bed sores a) Back care b) Care of pressure pt. c) Bed Sore dressing (minor)						
6. Bed making a) Bedmaking without Pt. 1)Simple 2)close 3)open b) Bedmaking with Pt. 1)Side to side 2)top to bottom c) Cardiac bed d) Operation bed e) Divided bed f) Fracture bed g) Renal bed						
7. Positioning a) Recumbent b) Semi recumbent c) Fowler's d) Prone e) Lateral f) Sim's						
8. Comfort Devices a) Air cushion b) Back rest c) Bed cradle d) Foot Boards e) Sand bags f) Bed blocks g) Cardaic table h) Ringpads						

FIRST YEAR	Taught In class Date	Sign.	Classroom		Ward	
			Date	Sign.	Date	Sign.
9. Lifting & Moving of Patient a) From bed to chair & Back b) From bed to trolley & back c) From trolley to chair & back						
10. Nourishment of patient a) Preparation of fluid diet b) Preparation of soft diet c) Preparation of normal diet d) Serving patients e) Feeding Helpless patient f) Artificial feeding R.T. g) Insertion of N.G. tube h) Jejunostomy feeding						
11. Bandaging a) Simple spiral b) Reverse spiral c) Elbow bandage d) Knee bandage & Ankle bandage e) Simple spica f) Palm bandage g) Stump bandage h) Eye bandage i) Ear bandage j) Ascending & Decending Shoulder bandage k) Finger bandage & Thumb bandage l) Breast bandage & Chest bandage m) Sling & Triangular bandage n) Abdominal bandage & T. o) Colin bandage p) Jaw bandage q) Splinting						
12. Elimination a) Assisting to bathroom b) Giving & Removing bodpan c) Giving & Removing urinal d) Cleansing bodpan urinal e) Care of incontinent patient f) Bowel wash g) Colonic crrigation						

FIRST YEAR	Taught In class Date	Sign.	Classroom		Ward	
			Date	Sign.	Date	Sign.
13. Observation, Recording, Reporting a) Temperature –Oral Axillary Rectal b) Blood pressure c) Pulse d) Respiration e) Weight/Height f) Intake/output chart g) Oral report						
14. Collection of Specimen a) Urine routine-midstream urine-24 hrs urine b) Faces routine-for occult blood c) Vomitus d) Sputum						
15. Urine Testing a) Sugar b) Albumin c) Sp.Gravitgy d) Reaction						
16. preparation of patient a) General physical exam. b) Eye, Ear & Throat c) Rectal d) Vaginal						
17. Nursing Treatment a) Cold compress b) Ice cap c) Cold/tepid sponge d) Cold pack e) Ice collar Hot applications - Hot water bag - Fomentations - Medicated - Non-Medicated - Poultice - Sitz bath Ear Application of drops - Application of heat Eye - Application of ointment - Instillation of drops - Eye wash Throat - Gargles - Painting						

Enema - Soap & water - Glycerine - Suppositories - Passing flatus tube						
18. Administration of medicine a) Calculating strength b) Preparation of lotion c) Calculation of dosage d) Administration of liquids e) Administration of pills f) Administration of power g) Injection (Intradermal ubcutaneaus Intradermal)						
19. Inhalation						
20. Care of equipment						
21. Caring of equipment a) Bed linen b) Blanket c) Furniture & Fittings d) Instruments e) Rubber good f) Sanitary utensils g) Class articles h) Stainless steel Articles i) Plastic articles j) Kitchen utensla k) Sherparticles l) Enehel						
22. Prevention of cross infection a) Hand washing b) Isolation Technique c) Use of gown, glovs, mak, cap d) Disinfection of linen e) Disinfection of instruments f) Disinfection of Rubber goods g) Disinfection of glass items h) Disposal of infected dressing i) Faces sputum
